SUBJECTS OF INFORMATION REQUIRED

USSR Branch

A. Natural Features

- | | | |
|---------------|--|--|
| 1. Terrain | All information | <ul style="list-style-type: none"> (1) Plains, valleys, mountains, passes, caves, volcanoes, beaches, coastlines (2) Physiographic (geomorphic) (3) Spot elevations (4) Natural disasters such as earthquakes, volcanic eruptions, floods, landslides |
| 2. Drainage | All information | <ul style="list-style-type: none"> (1) Courses of rivers, perennial or intermittent (2) Nature of flow (3) Periods of high and low water (4) Potability of water (5) Marshes and swamps (6) Subsurface drainage (7) Water supply, springs, etc. |
| 3. Vegetation | All information | <ul style="list-style-type: none"> (1) General information on vegetation zones (2) Types of timber trees and their location (3) Forest reserve areas (4) Edible plants and their distribution (5) Poisonous plants and their distribution |
| 4. Soils | General information.
No soils chemistry, structure or cross sections | <ul style="list-style-type: none"> (1) Distribution of soil types (2) Conservation and stabilization of soils: tree belts, grasses |
| 5. Geology | General information | <ul style="list-style-type: none"> (1) Surface areal geology (2) Unexploited mineral reserves (3) Water table depths |
| 6. Climate | All descriptive and statistical data which would aid in the climatic analysis of an area | <ul style="list-style-type: none"> (1) Climatic regions (2) Seasonal descriptions (3) Temperature (4) Precipitation (5) Winds, air masses (6) Visibility, cloudiness |

7. Oceanography

All information
of a general nature

- (1) Currents
- (2) Depths
- (3) Temperature and salinity
- (4) Submarine topography
- (5) Scientific activities
(charting programs)
- (6) Distribution and seasonal
characteristics of ice
conditions
- (7) Aids to navigation

B. Cultural Features

1. Transportation and Communications:

a. Roads

All information
except equipment,
grades, axle load,
technical and
statistical data

- (1) Alignment
- (2) Surface, width, foundation
- (3) Seasonality
- (4) Bridges, tunnels, ferries,
causeways
- (5) Distances
- (6) Road construction under way
- (7) Projected road construction
- (8) Road maintenance
- (9) Volume of road traffic;
freight and passenger movement
- (10) Strategic or economic importance
- (11) Road travel logs

b. Railroads

All information
except weight of
rails, treatment
of ties, technical
data on ballast or
road bed construc-
tion, curves, and
grades

- (1) Alignment, trackage
- (2) Gauge; and interchange points
- (3) Transloading stations
- (4) Electrification
- (5) Bridges, tunnels, ferries
causeways
- (6) Stations, terminal point
- (7) Timetables and railroad
travel logs
- (8) Marshalling yards, sidings,
passing loops
- (9) Railroad system data;
organization, changes in
systems (either consolidation
or abolishment)
- (10) Distances of rail lines
- (11) Construction of new railroads
under way or projected
- (12) Arctic or permafrost construc-
tion techniques
